DAY-BY-DAY ITINERARY

Day 1

Day 1

New York City Downtown & Night View Half-Day Tour

ALL DAY

Zoom through the soul of New York! This whirlwind tour crams iconic landmarks into one epic route. Breeze from the neon buzz of Times Square to the calm of Central Park and Columbus Circle. Snap the art-deco glam of Rockefeller Center and the Gothic grace of St. Patrick's Cathedral, pass the majestic NYPL, and gaze up at Grand Central's starry ceiling. Then, dive downtown to witness resilience at the 9/11 Memorial & Oculus, and soar up the One World Observatory for breathtaking views. Head to Brooklyn's Pier 17 for that perfect skyline shot, then cruise by the Statue of Liberty. Finish strong with a Wall Street bull photo-op before soaking in the distinct vibes of historic Trinity Church, chic SoHo, and lively Chinatown. As night falls, take a scenic drive across the Brooklyn Bridge to overlook the shimmering lights and city skyline along the East River. Stroll through the elegant Brooklyn DUMBO Art District for photo opportunities and artistic night vibes. Proceed to Brooklyn Bridge Park to admire the panoramic Manhattan skyline, with neon glimmers reflecting on the river and immerse yourself in New York’s stunning night scenery.

Gantry Plaza State Park (60 mins)

ALL DAY

Central Park

Central Park is the back garden of New York citizens. The park is beautiful in all seasons: bright red and green in spring, bright sunshine in summer, fiery red maple leaves in autumn, and silvery white and bleak in winter. Both local residents and tourists from all over the world are deeply attracted by this paradise among high-rise buildings. The park looks natural, but its landscape is actually carefully created: there are several artificial lakes, long walking trails, two skating rinks, a wildlife sanctuary, many lawns and children's playgrounds. It is also a well-known urban park in New York. From "Spider-Man" to "The Avengers", Central Park has frequently appeared in Marvel movies.

Rockefeller Center

Rockefeller Center is a complex of 19 commercial buildings. The famous Top of the Rock Observatory is located on the 70th floor, which is the best place to overlook Manhattan after the Empire State Building. There are shopping malls and restaurants inside the center, and NBC Radio is also located there. The street garden for people to take a rest also holds exhibitions regularly. Rockefeller Center is also the site of the final battle in the finale of "Eagle Eye".

St. Patrick's Cathedral

St. Patrick's Cathedral, a Catholic church built in 1858, is a Gothic building that took 80 years to complete. It is known as the most representative Gothic cathedral in the 19th century. The building is decorated with a large number of stone carvings around it, presenting a solemn and magnificent scene. The towering spires are quite eye-catching in the Melbourne skyline. The tallest spire is 103 meters high, and the other two spires are 61 meters high. It is the tallest church building in Australia and the largest church in the Southern Hemisphere. This tallest, most magnificent and gorgeous Gothic Revival church

in Australia also attracts many tourists.

Grand Central Terminal

This is one of the world's most famous train stations and a favorite filming location for many movies and American TV series, including Men in Black, Bad Boys, The Godfather, Gossip Girl, and The Avengers. The magnificent marble decorations, arched glass windows, the Kissing Room, the four-face clock, and the starry sky dome from a God's perspective will keep you dazzled. Explore the secrets of the Central Station with your guide.

One World Trade Center Observatory

One World Trade Center, also known as the "Freedom Tower," stands on the site of the original World Trade Center, which collapsed during the September 11 attacks. At 1,776 feet, One World Trade Center is the tallest building in the United States and the third tallest in the world. This height commemorates the signing of the Declaration of Independence in 1776. Upon arrival, guests are greeted by a large video board featuring welcome messages in various languages, and their hometowns are highlighted on a dynamically generated world map. "Voices" offers a unique experience, where the story of the people who built the building recounts their experiences, while "Foundations" provides an up-close look at the bedrock on which the building stands. From the Global Welcome Center to the guest elevators featuring virtual time-lapse, to the breathtaking video displays, and finally to the Discovery Level with its 360- degree views, every detail is a welcome addition to this experience.

Brooklyn Bridge

This bridge is a hybrid cable-stayed/suspension bridge in New York City. It connects the boroughs of Manhattan and Brooklyn, spanning the East River. The Brooklyn Bridge has a main span of 1,595.5 feet (486.3 m) and a height of 276.5 ft (84.3 m) above mean high water. It is one of the oldest roadway bridges in the United States and was the world's first steel-wire suspension bridge, as well as the first fixed crossing across the East River.

Liberty Cruise

Take the Statue of Liberty cruise around the island to start a one-hour tour of the Hudson River. On the way, you will see the Manhattan skyline and the scenery on both sides of the Hudson River, and overlook the Empire State Building and the World Trade Center. The cruise slowly passes by the Statue of Liberty, and you can clearly see the Statue of Liberty wearing a radiant crown, holding the torch of freedom, and holding the Declaration of Independence in her hand. It is magnificent and eye-catching, symbolizing the lofty ideals of the American people for freedom and their yearning and pursuit for a better life.

Charging Bull

The Wall Street Bull is a 5-meter-long, 6.3-ton bronze bull statue, a symbol of "strength and courage". As long as the bull is there, the stock market will always remain bullish. Every day, countless tourists compete to take photos with the bull, and in order to pray for good luck, the bull is rubbed until it is shiny.

"Down Under Manhattan Bridge Overpass" in DUMBO, Brooklyn

Located on the East River in New York, DUMBO is now a vibrant artistic district. Brooklyn Park along the riverbank offers a great view of the New York downtown skyline and the Brooklyn and Manhattan Bridges. The carefully preserved cobblestone roads, red brick walls, and the popular carousel make this place full of charm.

Gantry Plaza State Park

Gantry Plaza State Park offers a superb vantage point for admiring the Midtown Manhattan skyline at night. Located on the Long Island City riverfront, directly facing Midtown Manhattan, the park provides stunning views of the brightly lit skyscrapers. Across the East River, you can see magnificent nighttime views of iconic landmarks such as the Empire State Building and Rockefeller Center. Compared to Manhattan Island, it's less crowded, allowing for more leisurely photography of the beautiful skyline while avoiding the throngs of people.

WHAT'S INCLUDED & EXCLUDED

COST INCLUDES

- ✓ Transportation (The type of vehicle used will base on the number of guests on the day.);
- ✓ English driver and/or guide;
- ✓ Admission ticket to Liberty Cruise.
